DELEGATIONS

Virginia Department of Transportation

David Clarke, VDOT Residency Administrator, provided an update on road projects/issues in Montgomery County. Mr. Clarke reported VDOT has mainly dealt with storm cleanup in the entire Salem District due to the intense storms and flooding throughout the region.

He reported that Montgomery County will not see a lot of surface treatment activity in the County this year as VDOT is concentrating on each county, one at a time. Last year Montgomery County received surface treatment on 60 miles of roadway.

Mr. Clarke stated the Board of Supervisors held their public hearing on the Six-Year Improvement Plan for Secondary Roads in April 2013 and asked the Board to adopt the plan as presented by VDOT, with a few minor changes as follows:

Remove Craig's Creek Road (SR 621) due to completion of the project.

Add Yellow Sulphur Road (SR 643), grade, drain and stabilize unpaved road from 0.2 mile south of intersection at Route 642 to 1.3 miles North of begin state maintenance.

Board of Supervisors comments:

Supervisor Creed reported he received a call from Karen Whitt who owns property along both sides of Elliott Creek Road (SR 675) stating VDOT is encouraging her to get this road abandoned from a state maintained road to a private road. Apparently, VDOT has not maintained this road in years. According to Ms. Whitt, this road is not safe to travel and VDOT trucks are unable to travel down this road.

Mr. Clarke explained that Ms. Whitt will need to petition the Board of Supervisors. There are two options, abandonment or discontinuation of the road. If the road is abandoned, it will become a private road with no public right-of-way. If the road is discontinued it will remain a state road with public right-of-way; however, VDOT will no longer maintain it. Either way, a public hearing will be required.

Montgomery County Human Relations Council

Davina Irwin with the Montgomery County Human Relations Council made a presentation on the Human Relations Council. Ms. Irwin stated the Human Relations Council was chartered in 1993. Since it was chartered the human relations scene has changed profoundly, from a concentration on massive resistance-desegregation events to a concern for the common good, the well-being of all segments of the population. The common good ethic is a guideline for responding to crisis issues, such as race, gender, economics, jobs, immigration and more.

Ms. Irwin also requested the Board of Supervisors to consider designating one or more county officials to represent Montgomery County Government on the Human Relations Council.

PUBLIC HEARING

Conveyance of a Permanent Drainage Easement to VDOT

Board of Supervisors intent to convey a 0.072 acre permanent drainage easement on a portion of Tax Map Parcel 47-3-5H, located in the Elliston/Lafayette Industrial Park, Elliston, VA, to the Commonwealth of Virginia, Department of Transportation, for the North Fork Road (SR 603) project.

The County Administrator summarized VDOT's request. The County received notice from the Virginia Department of Transportation that they are in the process of acquiring rights of way for the construction, maintenance, and/or operation of North Fork Road (SR 603). VDOT is requesting a .072 acre permanent drainage easement across county owned property located in the Elliston/Lafayette Industrial Park for the North Fork Road construction project. A resolution to convey the easement to VDOT is listed under New Business for the Board's consideration.

There being no speakers, the public hearing was closed.

Supervisor Creed at this time reported that Mountain Valley Charitable Foundation (MVCF) requested VDOT to vacate VDOT's right-of-way at the old Elliston Fire Department property. MVCF purchased this property from the County for a YMCA Thrift Store and food pantry. VDOT has proposed to sell the r-o-w to MVCF for \$4,000. Supervisor Creed asked if the County could contact VDOT on MVCF's behalf to either get this amount waived or lowered.

The being no speakers, the public address session was closed.

Supervisor Gabriele stated that while he supports the Tourism Strategic Plan he would like additional information on how the Montgomery Regional Tourism Office is going to deal with social media and marketing. The strategic plan only outlines the traditional way to market the region and he believes that with the new age of social media a large cluster of people will be left out.

COUNTY ATTORNEY'S REPORT

The County Attorney reported that the real estate closing on the sale of the surplus property will occur in the upcoming week.

COUNTY ADMINISTRATOR'S REPORT

The County Administrator reported on the following items:

Old Prices Fork Elementary School property – County staff is still working on marketing this property to sell.

Proposed Little River Special Project Area (SPA) Designation – The New River Land Trust has proposed to request that the Virginia Outdoors Foundation (VOF) designate the Little River Area watershed of Montgomery County as a Special Projects Area (SPA). The proposed area represents 28,570 acres. 26,850 acres on the Floyd County side of the river has already been designated as an SPA. An SPA is a designation of particular geographic regions where protection through easements is warranted or where VOF expects to concentrate resources. Other factors may justify an SPA designation, such as the area is a statewide natural, scenic, historic, open-space, or recreational significance. The County's Comprehensive Plan does support such a designation. Designation of this area as an SPA will allow VOF to focus its resources on this area for conservation easements. Nothing in the SPA will require landowners to put their land into an easement or give up any of their property rights.

The County Administrator suggested holding a work session on this issue and a public hearing to gather any citizen comments if the Board wishes to move forward on this request.

By consensus, the Board agreed to hold a work session on the request by the New River Land Trust proposal to request the Virginia Outdoors Foundation to designate the Little River area watershed as a special projects area.

The County Administrator will be attending the VACO Finance Steering Committee meeting on August 16, 2013 in Richmond.

BOARD MEMBERS' REPORTS

Supervisor Biggs thanked staff for including a tour of the Animal Shelter into the Road Viewers tour.

Supervisor Biggs reported that she will be attending the VACo Education Steering Committee meeting on August 16, 2013.

Supervisor Tuck reported that the Western Virginia Regional Jail Authority recently purchased property adjoining the Western Virginia Regional Jail. Located on the property are several dog runs that apparently are old and not up to code. Supervisor Tuck asked if the staff could look into how much it would cost to bring them up to code and useable. He believes the dog runs could be utilized by the WVRJ for dog training by the inmates.

Supervisor Tuck suggested that pictures of current and former members of the Board of Supervisors be hung in a photo gallery at the Government Center. He asked staff to look into the possibility of creating a photo gallery in the Government Center.

Supervisor Gabriele attended the School Board meeting where it was reported that work scheduled to begin on the Auburn Middle School Project in the summer of 2012 did not begin until the summer of 2013 due to a delay in bidding, as agreed upon. The estimated completion date is February 2015.

Fall Community Conversations Meetings - Supervisor Gabriele suggested staff start planning for the Community Conversations meetings for the Fall. He would like for one of the meetings to be held in his district either at Harding Elementary School or Gilbert Linkous Elementary School.

Animal Shelter - Because he will be out of town the week of the August 26, 2013 Board meeting when a work session is scheduled on the Animal Shelter, Supervisor Gabriele expressed his support in moving forward with the project. He stated it is important to construct a well-constructed building and not to do it on the cheap side as it will only cost more in the future. He also believes now is not the time to commit to the entire construction costs as there are other capital needs that need consideration and that donations/fundraising will be needed. He stated there is a need to develop a time-line with a set groundbreaking date.

Board of Supervisors Meeting Times – Supervisor Gabriele asked if fellow Board members would consider moving the start time of the meetings from 7:00 p.m. to 7:30 p.m. and closed meeting from 6:00 p.m. to 6:30 p.m.

R-FY-14-25

Board Members' Reports continued

Supervisor Creed suggested several fundraising campaigns for the construction of a new Animal Shelter. He suggested a dollar for dollar campaign that would match county funds for every donation received up to a certain level for the construction of a new Animal Shelter. He also suggested that donations at a certain dollar amount to have rooms named after the person.

Proposed Norfolk Southern Intermodal Facility in Elliston - Letter from Former Senate Member J. Granger MacFarlane: Supervisor Creed expressed his concern in what he believes that Senator MacFarlane took it upon his self to represent the Montgomery County Board of Supervisors in a letter regarding the Elliston/Ironto Intermodal Terminal. The letter addressed to all elected officials in the surrounding areas expresses Mr. MacFarlane's appreciation for their positive responses regarding the establishment of a Special Task Force to jump start the Elliston/Ironto Norfolk Southern Intermodal Terminal. The letter also urges elected officials to keep the process moving along regionally.

Supervisor Creed would like to see a rebuttal letter sent to Senator MacFarlane expressing Montgomery County's opposition to the construction of an Intermodal Facility in Elliston.

Supervisor Perkins commented that the Roanoke Valley-Alleghany Regional Commission will conduct a study updating information on the possible impact the project would have on local economy and transportation infrastructure. She stated that Dan Brugh, the County's representative on the Roanoke Area MPO, has repeatedly told them that Montgomery County opposes this project. Supervisor Perkins also reported that the I-81 Corridor Committee has stated that Norfolk Southern is more interested in a North to South corridor than a East to West corridor.

The County Administrator stated that a new study of the intermodal facility could be a good thing. This study could prove that it is not viable to construct an intermodal facility in Elliston. It is known that an intermodal facility will bring more truck traffic, will not add an significant amount of jobs, and the site is not large enough.

Supervisor Politis stated he received a call from Scott Kroll expressing his appreciation to the Board of Supervisors for appointing him to the Planning Commission.

ADJOURNMENT
